

Osuwari ME:EYE Paper Craft

Let's make your very own ME:EYE

You can even make your own custom ME:EYE by using the reverse side!

How to Play

There are 2 ways
to enjoy crafting

① Craft ME:EYE

Craft ME:EYE by following
the instructions below!

② Craft your own custom ME:EYE

Turn the template over and color it however you like!
Then assemble it so that the side you colored faces outward.

*The trick is to fold it in the opposite direction as the steps in ①
(swap the mountain folds and valley folds).

⚠ Caution

- Use a permanent marker!

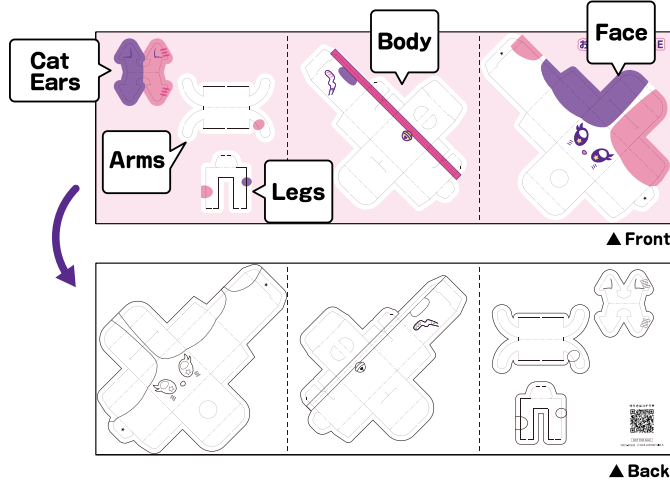

Water-based markers take a while to dry and
can get your hands dirty, so permanent markers
are recommended for drawing.

- Be careful not to get your clothes dirty!

While coloring and waiting for the ink to dry,
make sure not to stain your clothes or anything
around you.

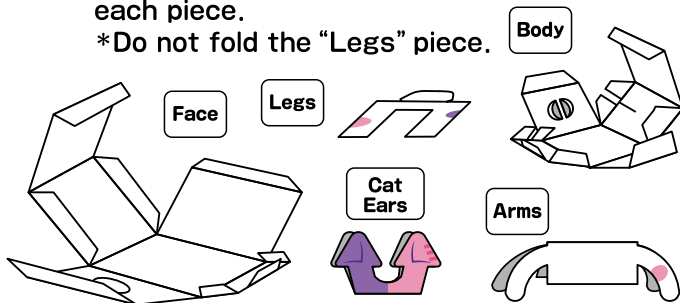

Assembly Instructions

- ① Punch out all the pieces from the sheet:
"Face", "Arms", "Legs", "Body", and "Cat Ears."

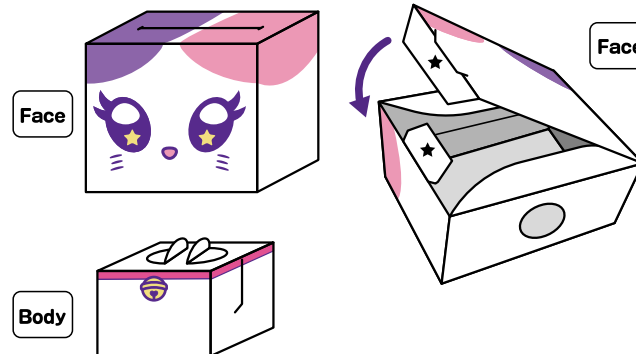

- ② Mountain-fold along the marked lines on
each piece.

*Do not fold the "Legs" piece.

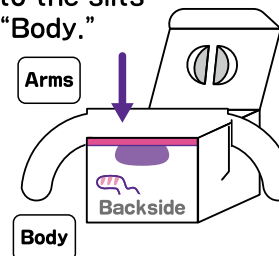

- ③ Assemble the "Face" and "Body" pieces
into box shapes.
(*Insert each tab into the matching slit
marked with the same symbol (★).)

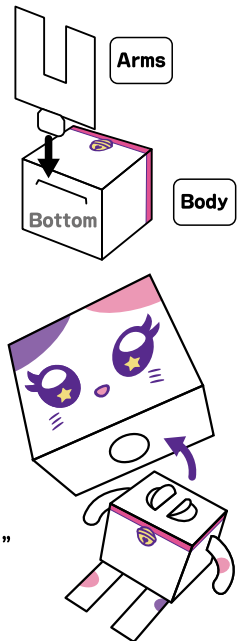

Fold it so that the semicircular tab
attached to the top part of the "Body"
sticks out to the outside.

- ④ With the lid of the "Body" box open,
insert the "Arms" into the slits
on the sides of the "Body."

- ⑤ Insert the "Legs" into
the slit at the bottom
of the "Body."

- ⑥ Raise the semicircular tab
on the top surface of
the assembled "Body"
(with "Arms" and "Legs"
attached), and insert it
into the round hole
at the bottom of the "Face"
to join them together.

- ⑦ Finally, insert the "Cat Ears"
into the slit on top of the
"Face," and it's complete!
